Subject Index

Adaption–innovation theory
entrepreneurship and adaption–innovation theory, 373
Australia
Australian venture capital market revisited, 327

Balance of payments
the technological balance of payments as an indicator of technology transfer in OECD countries. The case of Italy, 1
Beer brewing
the use of sorghum for beer brewing in Nigeria, 3
Business systems
strategic alliancing in computerized business systems, 457

Canada
analysis of individual Canadian inventor behaviour, 357
Cognitive style
cognitive style, personal involvement and situation as determinants of computer use, 183
collaboration
user and third-party involvement in developing medical equipment innovations, 163
Computer use
cognitive style, personal involvement and situation as determinants of computer use, 183
Corporate environment
corporate environment and the proficiency of new product process activities, 63
Custom-made information services
custom-made information and the information engineer, 113

Decision making
R&D's contributions to strategic decision making: rationale, content, and process, 267
Decision-based approach
a decision-based approach to the investigation of new venture activity, 205
Denmark
technology and growth — measures and concepts: a case study of Denmark, 475
Development
strategies for technology development in India, 445
technological innovation and the development of managerial competencies, 417
Diffusion-oriented
from 'mission-oriented' to 'diffusion-oriented' paradigm; the new trend of U.S. industrial technology policy, 339

Education
the role of training and education in technology transfer: A case study of Kuwait, 133
Entrepreneurship
a decision-based approach to the investigation of new venture activity, 205
entrepreneurship and adaption–innovation theory, 373
Europe
external networking and innovation in small and medium-sized manufacturing firms in Europe, 93

Generic technologies
inter-firm partnerships for generic technologies — the case of new materials, 429
Germany
inter-firm R&D cooperations in Germany, 219
Government
technology transfer from U.S. government and university R&D laboratories, 231
Growth
technology and growth — measures and concepts: a case study of Denmark, 475

High technology firms
high technology product development in small firms: a challenge for marketing specialists, 247
the relationship between product technology and innovation performance in high technology small firms, 79

India
strategies for technology development in India, 445
Industrial technology policy
from 'mission-oriented' to 'diffusion-oriented' paradigm; the new trend of U.S. industrial technology policy, 339
Information
custom-made information and the information engineer, 113

Information systems
information systems investments: evaluation at the feasibility stage of projects, 283
Innovation
entrepreneurship and adaption–innovation theory, 373
external networking and innovation in small and medium-sized manufacturing firms in Europe, 93
innovation in Grand Prix motor racing: the evolution of technology, organization and strategy, 387
technological innovation and the development of managerial competencies, 417
the relationship between product technology and innovation performance in high technology small firms, 79
Inter-firm partnerships
inter-firm partnerships for generic technologies — the case of new materials, 429
Inter-firm R&D
inter-firm R&D cooperations in Germany, 219
Inventor
analysis of individual Canadian inventor behavior, 357
Italy
New technology and employment in Italian telecommunications, 303
the technological balance of payments as an indicator of technology transfer in OECD countries: the case of Italy, 1

Just-in-time systems
implications of implementing just-in-time systems, 143

Knowledge-based methods
redesigning the knowledge-based product development organization: a case study of sociotechnical systems change, 403
Kuwait
the role of training and education in technology transfer: a case study of Kuwait, 133

Life cycle
technology life cycles and regional types: an evolutionary interpretation and some stylized facts, 483

Managerial competencies
technological innovation and the development of managerial competencies, 417
Manufacturing firms
external networking and innovation in small and medium-sized manufacturing firms in Europe, 93
Marketing
high technology product development in small firms: a challenge for marketing specialists, 247
Medical equipment
user and third-party involvement in developing medical equipment innovations, 163

Mission-oriented
from 'mission-oriented' to 'diffusion-oriented' paradigm; the new trend of U.S. industrial technology policy, 339
Motor racing
innovation in Grand Prix motor racing: the evolution of technology, organization and strategy, 387

Networking
external networking and innovation in small and medium-sized manufacturing firms in Europe, 93
New materials
inter-firm partnerships for generic technologies — the case of new materials, 429
New product activities
corporate environment and the proficiency of new product process activities, 63
New technology
new technology and employment in Italian telecommunications, 303
New venture activity
a decision-based approach to the investigation of new venture activity, 205
Nigeria
oilseed meals as a potential solution to dietary protein shortage in Nigeria, 315
the use of sorghum for beer brewing in Nigeria, 3

OECD countries
the technological balance of payments as an indicator of technology transfer in OECD countries. The case of Italy, 1
Oilseed meals
oilseed meals as a potential solution to dietary protein shortage in Nigeria, 315
Organization
innovation in Grand Prix motor racing: the evolution of technology, organization and strategy, 387

Personal involvement
cognitive style, personal involvement and situation as determinants of computer use, 183
Product development
high technology product development in small firms: a challenge for marketing specialists, 247
redesigning the knowledge-based product development organization: a case study of sociotechnical systems change, 403
Product technology
the relationship between product technology and innovation performance in high technology small firms, 79
Projects
information systems investments: evaluation at the feasibility stage of projects, 283
Protein shortage
oilseed meals as a potential solution to dietary protein shortage in Nigeria, 315

R&D
R&D's contributions to strategic decision making: rationale, content, and process, 267
R&D cooperation
inter-firm R&D cooperations in Germany, 219
R&D laboratories
technology transfer from U.S. government and university R&D laboratories, 231
Regional types
technology life cycles and regional types: an evolutionary interpretation and some stylized facts, 483
Research effectiveness
the impact of research sponsorship upon research effectiveness, 27

Situation
cognitive style, personal involvement and situation as determinants of computer use, 183
Sociotechnical systems
redesigning the knowledge-based product development organization: a case study of sociotechnical systems change, 403
Sorghum
the use of sorghum for beer brewing in Nigeria, 3
Sponsorship
the impact of research sponsorship upon research effectiveness, 27
Strategic alliancing
strategic alliancing in computerized business systems, 457
Strategy
innovation in Grand Prix motor racing: the evolution of technology, organization and strategy, 387
technology
innovation in Grand Prix motor racing: the evolution of technology, organization and strategy, 387
strategies for technology development in India, 445
technology and growth — measures and concepts: a case study of Denmark, 475
technology life cycles and regional types: an evolutionary interpretation and some stylized facts, 483
the technological balance of payments as an indicator of technology transfer in OECD countries: the case of Italy, 1
Technology transfer
technology transfer from U.S. government and university R&D laboratories, 231
the role of training and education in technology transfer: a case study of Kuwait, 133
Telecommunications
new technology and employment in Italian telecommunications, 303
Training
the role of training and education in technology transfer: a case study of Kuwait, 133

U.S.A.
from 'mission-oriented' to 'diffusion-oriented' paradigm; the new trend of U.S. industrial technology policy, 339
University
technology transfer from U.S. government and university R&D laboratories, 231
User
user and third-party involvement in developing medical equipment innovations, 163
Venture capital
Australian venture capital market revisited, 327
